

HOUSSNOU MOUBARAK KABORE

PROFILE With over 8 years of experience in Information Systems Management, I have a deep knowledge and understanding of advanced technologies such as Virtualization, Databases, Network and Security management systems. I have recently graduated from a coding bootcamp where I acquired web development skills in HTML, CSS and JavaScript.

As a JavaScript full stack developer, I am competent in building web applications using Front-end frameworks such as Bootstrap, jQuery and React. I am proficient in delivering dynamic server architecture using APIs, Databases and Back-end frameworks namely Node.js with its derived libraries.
